St. Anne's C.E. Primary School

Dear Parents/Carers,

You should hopefully have had the workbooks through by now ready for use this week. We hope that they will provide another level of support and guidance for you. To streamline our provision going forward and because staff will be working in school full time, with their designated groups, as well as providing home learning and guidance, you may find that a different teacher will setting work for your child. This will only be for a small group of children in each class but will ensure that their learning is bespoke to them. The other areas of the curriculum such as art, geography etc will remain unaffected and reference should be made to the respective 'Homework grids' included in your pack.

All teachers will have access to the planning for other groups and so if you have any concerns about your child, you should still email your child's teacher directly for them to deal with (emails can be found on the school website).

You, as parents, can expect daily guidance via text or email as to what to do and when, with the respective books and on many occasions (especially KS2) they will be used in conjunction with other online resources, so that we can make the curriculum work effectively for our children.

Throughout the period that our school has been closed, the staff have welcomed the receiving of work from the children to look at so that they may offer some feedback. This has worked extremely well in certain classes and has proven to be a very positive line of communication between staff, parents and children. Looking ahead, we want to highlight this facility and really encourage parents to engage with it should they wish. We are here to assist in whatever way we can!

The St. Anne's Teaching Team
